Overview

Our Legionella Control for Responsible Persons course is aimed at those with managerial responsibility for Health and Safety, who have sufficient authority, competence and knowledge of water systems and water hygiene management, to interpret regulations such as the Approved Code of Practice L8:2013 and HSG 274 parts 1-3.

It is a Level 3 Award from Highfield Qualifications, one of the UK's most recognised awarding organisations and a global leader in compliance qualifications.

Topics covered on the course include:

- Ensuring delegates know of their individual roles, responsibilities and legal obligations.
- Growth requirements of Legionella, interactions with other microbiological species
- Factors affecting the accumulation of biofilm
- Effectiveness of chemical and non-chemical treatments against Legionella and biofilm
- Temperature as a Legionella control method
- Materials of construction, pipework installations
- Water treatment, monitoring and commissioning
- Design, operation, monitoring and maintenance of water systems
- Other water systems such as spa baths and decorative fountains
- Air conditioning system hygiene
- Investigation of outbreaks and routine HSE visits
- Consequences of non-compliance

Duration

The total qualification time (TQT) and guided learning hours (GLH) for this qualification is 8 hours.

TQT is an estimate of the total number of hours it would take an average learner to achieve and demonstrate the necessary level of attainment to be awarded with a qualification, both under direct supervision (forming guided learning hours) and without supervision (all other time). TQT and GLH values are advisory and assigned to a qualification as guidance.

Assessment

This qualification is assessed by learner workbook. This assessment model requires learners to provide a short response to prescribed questions within a workbook set by Highfield Qualifications. Successful learners will have to demonstrate knowledge and understanding across the breadth of the qualification syllabus.
